

A new vision —————

————— for the future space

Summer

in ORO Stones, We believe

Good Things

They don't have to be expensive

To be the industry leader in creating superior quality products with high aesthetic value to enliven a modern living space.

ORO is steadfast in creating magnificent stone with high end aesthetic appeal that breathes life into our customers' home and workplace. We supply an impressive array of stone products that are aesthetically attractive, susceptible to damage and durable in functionality.

About Us

Established in 2013, ORO Stones consistently produces high quality stone products – designed with a harmonious blend of art, nature and technology to enliven each unique space. We possess close to two decades of experience in stone fabrication and are well-equipped with state-of-the-art machinery from Germany to produce quality products of high precision to meet customers' needs.

Well-regarded for our exceptional installation service, our products are widely sold all over Malaysia and Singapore.

OUR COLLECTION

Quinn

Quartz

From dazzling black to glacial white, Gaia offers enormous design possibilities that are guaranteed to add some sparkle to your home.

Talos

Terrazo

Terrazzo achieves many of the aesthetic qualities found in ceramic tiles or stone surfaces.

Sirens

Solid Surface

Solid surface is a unique material that can be bent and shaped flexibly during fabrication, making it the go to material for custom work.

Memphis

Marble

Marble stones are the epitome of timeless elegance. It is a translucent material that glows and brightens up the room when exposed to sunlight.

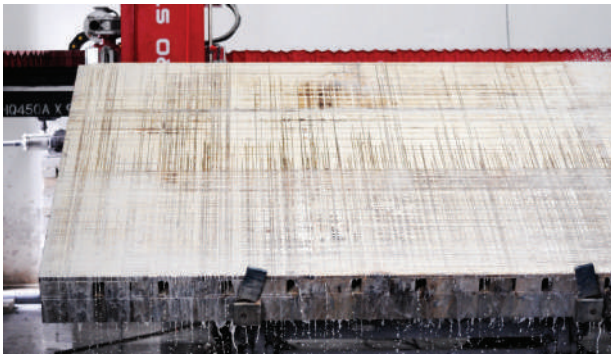

Craftmanship of the heart of our production

Here at our factory, we are committed to the process of perfecting our method of stone fabrication to create an exquisite range of high-quality stone products for our clients. We imported state-of-the-art machinery from Germany to produce quality finishes and cut-to-size products of high precision to complete your visual dream.

At the back of our manufacturing capacity is our experienced team of expertise to supervise the entire process from production, installation to complete delivery. With deep-rooted passion and genuine commitment to product excellence, we make each piece of stone a masterpiece.

Stone fabricator
& Installer

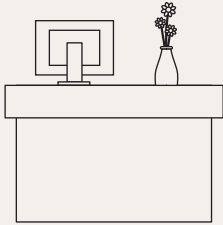

Fabricating stone is a fascinating process. Our factory has been fabricating stone products for the past two decades prior to establishing our own brand

- ORO Stones

Our stones are sold directly by the manufacturer to our customers (M2C). We elevate our customers' expectations by providing unparalleled quality and sophisticated design.

Quinn

— Quartz Stones

From dazzling black to glacial white, Quartz offers enormous design possibilities that are guaranteed to add some sparkle to your home.

The delicate veining of the slabs creates an elegant look that makes the perfect finish for bathrooms and kitchens. Quartz is almost indestructible, extremely resistant to stains and corrosion, scratches and dents. As Quartz are nonporous, they are incredibly easy to care for and require very low maintenance.

Memphis

— Marble & Granite

Marble stones are the epitome of timeless elegance. It is a translucent material that glows and brightens up the room when exposed to sunlight.

Given its versatility, marble makes a fabulous material of choice for kitchen countertop, flooring and walls. Marble comes with heightened durability and is scratch resistant. Best to be protected with a sealer, marble surface is easy to clean thanks to its moisture resistant characteristics. It has a softer texture than other countertop choices, making it easier to be fabricated into a variety of edge profiles and designs.

Terrazzo

Terrazzo achieves many of the aesthetic qualities found in ceramic tiles or stone surfaces.

Made with special aggregates, Terrazzo offers complete creative freedom for customers to establish the ideal mix of colours they desire. It is among the highly sought-after material for flooring use. A unique trait of Terrazzo is its longevity, usually lasts longer than the entire life span of a building. It is resistant against water damage, fire damage, chemical spillage and other stain risks. It also costs less than other material because of the lowest life-cycle costs in flooring.

Introducing

E-Sink

— The revolutionized
undermount sink

Did you know?

-  On average, homeowners spend S\$2750 for kitchen cabinet replacement due to sink leakage.
-  Majority of homeowners do not know they have a kitchen sink leakage until a strong odor of rotten cabinet can be smelled.
-  Silicon erosion is the main cause of a sink leakage.
-  Traditional topmount and undermount sinks cannot guarantee waterproofing

Handmade Stainless Steel Sink
